EXPERIENCE

Front End Developer | intern

Digipodium

Aug 2022 - Apr 2023 | Lucknow, UP

- Developing a user interface that seamlessly adapts to different screen sizes and devices, providing a consistent experience for users across platforms.
- Developing search functionalities that allow users to quickly find specific information within the application. Implementing filters to refine search results based on various criteria
- Monitoring and improving the performance of the front-end application, optimizing page load times, reducing network requests, and employing caching techniques.

EDUCATION

Bachelor Of Computer Application

Babu Banarasi Das University

2016 - 2019 | Lucknow, UP

Master Of Computer Application

Pacific Institute Of Engineering and Management

2020 - 2022 | Delhi

PROJECTS

E-commerce Application

Responsive React frontend offers smooth user experience, enabling easy product browsing, cart management, and seamless checkout for customers.

Django authentication safeguards accounts, ensures data security, and authorizes user access. Admins utilize Django's interface for managing products, users, orders, and data analysis.

RESTful APIs enable seamless external integration, with a scalable architecture managing users, products, orders securely using PostgreSQL for data integrity.

TechStack**: ReactJS, Nodejs, Django, PostgresSQL**

NetFlix Clone

Created a Netflix-inspired UI using React components (Header, MovieList, MovieCard, Player), manage state efficiently with Redux, centralizing user data, preferences, and movie selections for a seamless experience. Optimize bundling with Webpack, utilizing loaders and code splitting to boost application performance.

TechStack**: ReactJS, Redux MaterialUI, TailwindCss, NodeJs, Jest**

OTP Verification

Develop a robust OTP verification system using Django Rest Framework, Twilio, and REST API for secure user authentication via email and phone. Streamline OTP generation and delivery for enhanced security and user experience.

TechStack**: Django(DRF), PostgresSQL, Twilio**

SKILLS

Programming

JavaScript , Python

Frameworks & Library

ReactJs   NodeJs   ExpressJs   Django
ReduxJs   TailwindCss

Database

PostgreSQL, MongoDB

Tools & Technologies

Git   GitHub , CSS , Jest, WebPack

CERTIFICATION

Cis Certified IT Professional for Core Java
Cosmo Info Solution

Introduction To Programming Using Java
Microsoft CertIficate of Achievement (Udemy)
